PROFILE

Final-year Information Technology student at the National Institute of Business, seeking to apply a strong technical aptitude to a Mobile Developer position. Proficient in Java for Android development and have explored cross-platform development with Flutter. Complementing my IT studies, I am also a final-year Psychology student at the Royal University of Phnom Penh and have been working as a teacher at Wilky Way School since 2021, honing valuable communication, analytical, and problem-solving skills. Eager to contribute a unique blend of technical and interpersonal abilities to a dynamic mobile development team.

WORK EXPERIENCE

Wilky Way School   2021 - PRESENT
Khmer Teacher (Part-Time, Mornings)

Introduced foundational Khmer language skills to young learners and managed early childhood classroom environments.
- Taught structured Khmer lessons to Grade 4.
- Planned and adapted learning materials.
- Assessed student progress and gave feedback.
- Managed classroom organization.
- Addressed student questions clearly.
